Consent To Medical Treatment

I hereby authorize Gill Neuroscience & its employees, agents and otherwise affiliates to administer any treatment, and perform such other actions as the physical may deem necessary or advisable in my diagnosis and treatment. I am aware that the practice of medicine is not an exact science and I acknowledge that no warranty, guarantee or assurance has been made by the clinic or physician as to the result of the treatments, examination or otherwise that may be obtained.

Assignment of Insurance Benefits to Provider

I hereby request payment and assign any benefits due me under the terms of any policy or policies and/or under Title XVIII of the Social Security Act that may cover professional services rendered to the above name mentioned assignee.

Financial Agreement

I agree to pay any balance of the charges over & above the mentioned benefits. It is understood by the undersigned that he/she is financially responsible for charges not covered by the assignment.

Authorization to Receive Text/Email Communication

I authorize to receive communication from Gill Neuroscience by text or email at the number or addresses provided above, including but not limited to communications about appointments, feedback, treatment, and payment. I understand that such emails and texts may not be secure and there is a risk that they may be read by a third party. Comments submitted on surveys may be anonymously shared on the Gill Neuroscience website. I choose to receive communications from Gill Neuroscience by text or email at the number or address stated above, including but not limited to communications about appointments, feedback, treatment, and payment. I understand that such emails and texts may not be secure and there is a risk that they may be read by a third party. Comments submitted on surveys may be shared on the Gill Neuroscience website.

Authorization to release information

I authorize the release of any information to any insurance company or third-party payer for the purpose of obtaining payment for services provided. I authorize release of any information to any physician, skilled facility or other.

Summary of Notice of Privacy Practices

Gill Neurosciences cares about protecting all patients' privacy. In the process of providing services requested, we will collect, use and share certain information provided by the patient. The "Notice of Privacy Practices" explains in detail what information is collected and how information may be used.

Treatment- We are permitted to use and disclose your medical information to those involved in your treatment, including but not limited to, hospital staff, primary care physicians and specialist.

Payment- We are permitted to use or disclose your medical information to bill and collect payment for services provided to you.

Health Care operations- We are permitted to use or disclose your medical information for the purposes of health care operations, which are activities that support Gill Neuroscience's and ensure that quality care is delivered.

Disclosures Without Patient Authorization- There are situations in which we are permitted by law to disclose or use your medical information without written authorization or opportunity to object. These include, but are not limited to: Public Health Activities, abuse/neglect, health oversight, legal proceeding, law enforcement, workers' compensation, military or as otherwise required by law.

Restriction- You may request that a restriction or limit how your protected health information is used or disclosed for treatment, payment, or health care operations. We do NOT have to agree to this restriction, but if we do agree, we will comply with your request except under emergency situations.

Inspection/ Amendment of Medical Information- You may inspect and/ or copy health information that is within the designated record set. You may request and amendment of your medical information in the designated record set. Any such request must be submitted in writing to Gill Neurosciences Privacy Officer.

Gill Neurosciences is required by law and regulation to protect the privacy of patients' medical information to provide notice of our privacy practices with respect to protected health information, and to abide by the terms of the notice or privacy practices in effect. This notice is subjected to change at any time. If changes are made, a new notice will be posted in the office where it can be seen.

Gill Neuroscience Financial Policy

To reduce confusion and misunderstanding between our patients and practice, we have adopted the following financial policies. If you have any questions regarding these policies, please discuss them with our office manager. We are dedicated to providing the best possible care and service and regard your complete understanding of your financial responsibilities as an essential element of your care and treatment.

Unless other arrangements have been made in advance by either you or your health insurance carrier, full payment is due at time of service. For your convenience we accept Cash, Check, Visa, Mastercard, Discover, and American Express.

Your health plan will only pay for services that it determines to be "reasonable and necessary". If your health plan determines that a particular service, although it would otherwise be covered, is not "reasonable and necessary" under program standards, your plan will deny payment for this service. In the event that your plan determines a service "not covered", you will be responsible for the complete charge. Payment is due upon receipt of a statement from our office.

I have read and understand the financial policy of the practice, and I agree to be bound by its terms. I also understand and agree that the practice may amend such terms from time to time.

E- Prescribing/ Medication History Consent Form

E-Prescribing is defined as a physician's ability to electronically send an accurate, error free, and understandable prescription directly to a pharmacy from the point of care. Congress has determined that the ability to electronically send prescriptions is an important element in improving the quality of patient care. E-Prescribing greatly reduces medication errors and enhances patient safety. The Medicare Modernization Act (MMA) of 2003 listed standards that have to be included in an E-Prescribe program. These include:

- Formulary and benefit transactions- Gives the prescriber information about which drugs are covered by the drug benefits plan.
- Medication history transaction- Provides the physician with information about medications the patient is already taking to minimize the number of adverse drug events.
- Fill status notification- Allows the prescriber to receive an electronic notice from the pharmacy telling them if the patient's prescription has been picked up, not picked up, or partially filled.

By signing this consent form you are agreeing that gill Neurosciences can request and use your prescription medication history from other healthcare providers and/or third-party pharmacy benefit payors for treatment purposes. Understanding all of the above, I hereby provide informed consent to Gill Neurosciences to enroll me in the E-Prescribe Program. I have had the chance to ask questions and all of my questions have been answered to my satisfaction.
